

All for dreams

Industrial Motors and Systems Policy for Quality

Industrial Motors and Systems is committed to providing the global market for electric motors with competitive products and services, which meet customer expectations for quality, performance, delivery, responsiveness and reliability.

We will accomplish this by meeting the required standards, providing the required resources and setting objectives for providing continuous improvement that is necessary to generate customer success.

Industrial Motors and Systems Vision

Be the leading global provider of motor and systems solutions by enabling Total Customer Success.

Industrial Motors and Systems Brand Promise

Utilize innovation and technology to deliver to our customers the best value, service, and quality motor and systems solutions.

Rich Heppe, President - Industrial Motors & Systems – 11/01/2010
